Re: Del - OR Claims Rewriting of Mining Plan

Dear Sal:

Thank you for working with us on July 11, 1994, in respect to our Del-OR claims. At this time we are putting together plans to reclaim the site hereby referred to as Del-OR Mining Project UtU69814. On the week of July 24, 1994, we intend to begin bringing our equipment on said property. At that time we intend to take off the site any equipment not directly related to the mining project, ie. the junked truck and scrap cars located near the Mill Site (Map Ref "C").

At this time we are requesting that you recognize the rail car tank (black) that is on site UtU69814. It is necessary to provide storage for our water use. I would like to point out that we are not using any chemicals to retrieve our minerals (just water and gravity - water rights app. enclosed).

We intend to follow all rules and regulations regarding reclamation pertaining to Section IV Operation and Reclamation Practices (Rules R647-2-107, 108, and 109 of the DOGM Application - See Attached). Within 180 days we will follow up with a contingency plan for the operation with time tables for reclamation and start up of the new project. Notice of intention to commence small mining operation will follow within 180 days.

If you have any suggestions, please call.

Regards,

Don Dallape

VI. SURETY (Rule R647-2-111). N/A RECLAMATION PROJECT

Note: Completion of this section is not necessary for exploration projects that will disturb five or less surface acres.

Exploration projects that will disturb more than five acres at any given time are required to post a reclamation surety. The surety must be provided to the Division prior to commencement of operations. In calculating the surety amount, the Division will consider the following major steps:

- 1) Hole plugging
- 2) Backfilling, grading and contouring.
- 3) Soil material redistribution and stabilization.
- 4) Revegetation (preparation, seeding, mulching)

To assist the Division in determining a reasonable surety amount, please attach a reclamation cost estimate which addresses each of the above steps.

VII. SIGNATURE REQUIREMENT

I hereby commit to the reclamation of the aforementioned exploration project as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.
